ARREST OF CAPT. SCOTT. OF THE UNITED STATES STEAMSHIP KEYSTONE STATE. [From the Finlande], his linquirer, Oct. 29.]
The steamship Keyston's State arrived at this port on Friday last, as has been already announced, bringing, as a prize, the steamer Selver, captured off Key West while attempting to run the blocknie. As soon as the announcement of the arrival of the Keystone State was telegraphed to Washington an order was issued by the Secretary of the Navy for the arrest of Captain Scott, of the Keystone State, the charge being that of leaving his station. The order was telegraphed to Commander Turner, at the Navy Yard, on laturday, and the arrest was secondingly made. It is understood that the government considered that it was the daty of Captain Scott to have taken his prize into Key West, and to have condemined and sold her at that place; and it is imimated that the search for the privateer Samter required the continued presence of the Keystone State in the cruising grounds to which she had been assigned.

On the other hand, it is a leged that Capt. Scott was advised by Union eitzens of Key West, and by army officers stationed there, to take the prize to a Northern port, inasmuch as the arms on beard, if seld at Key West, might, through disloyal citizens, find their way into rebel States, and be ultimately used against the government. Acting, it is said, upon these suggestions, he came to Philadelphia as aiready narrated. When the cause of the action of Captain Scott is understood, the government (unless it has additional reasons for proceeuing the mater will be first Lieutenant.

Captain G. H. Scott is a native of Virginia, from which state he was appointed in 1823. He received his commission in 1857 as sommander, and has seen more than sevention years of soa revrice. The above statement has been obtained from parties believed to be fully informed, and there is very little doubt but that the matter will be finally adjusted without detriment. The zoneplain was in substance that Captan Scott is a friend langua

substance that captain Scott had remied to determine the prize vessel to the Marshal, although captured within his jurisdiction.

In addition to numerous arms, a number of letters from Hawans, enclosing bills of exchange upon persons in Charleston, New-Orleans, Mobile and Savannah, were found on board the prize.

THURLOW WEED ON GEN. PREMONT.
Editorial Correspondence of the Albany Evening Journal.]
Since it cannot be concealed or denied that General Promont's conduct in Missouri has been the subject of dicial inquiry, and is now the occasion of executive vitueration and of popular solicitude, I have made it my butters to the control of the promote of the pro

romation from which the people, as jurors, may sately reader a verdict.

On coming, as I have, to a conclusion unfavorable to General Fremont, it is scarcely needful to say that I had, in doing so, to "conquer" many "prejudices." My relations with General Fremont have been intimate and pleasant. I believed him entimently upright and patriotic. I thought him well sitted for the high command with which he was invested; and he went forth with my heart-feit, sapirations that he would render good service to our country and will glory to himself.

Passing much that might be said, immuguing the sense and taste of General Froment, and confining myself to accusations undensibly true, I submit to the readers of the Journal some facts which will show them how lamentably a favored General disappoints the popular expectation:—

on:—
When Gen. Fremont reached St. Louis he took as his seadquarters a house for which the government is paying beadquarters a house for which the government is paying \$9,000 a year.

He surrounded himself with a numerous staff, none of whom were residents of Missouri; organizing, simultaneously, a body guard, consisting of nearly three hundred horsemen, through which access to the chief is as difficult as the approach to a monarch in the darkest ages of des-

se the approach to a monarch in the darkest ages of despotism.

He has appointed and commissioned, without the shadow of authority, more than fitty officers, with the rank of colonel, lieutenant colonel, major, captain, &c. Col. Andrews, the United States Favmaster, was required to pay these officers, and upon his refusal to do so was threatened with imprisonment. He was also directed to make an liegal transfer of \$100,000.

The officers belonging to Gen. Frement's staff are interested in army contracts. Capt. Haskall, an aid, is a partner of Col. Degrai in mule, hay and other contracts. Captain Turnly, a United States Commissary, was ordered to receive and pay exceptilant prices for inferior mules, from Captain Haskall, and upon protesting against this wrong was ordered away from the post by General Fremeni.

Fremont.

M. Davis, of General Fremont's staff, re-belved a contract for blankets, which, on delivery, proved rotten and worthless, and though condemned, were paid for and sent to the hospitals.

The muskets purchased by General Fremont in France

are worthless.

After General Meigs limited the price to be paid for cats at 30c, corn at 25c., and hay at \$17 50, a contract was made with Baird & Palmer (l'almer, Cook & Co., of California notoriety) at 33c. for cots, 30c. for corn, and \$19 for hay, amounting in the aggregate to \$100,000.

General Preucest, on his arrival at 8t. Louis, was met by the Ald of General Lyon, accompanied by Major Pheips, M. C., asking for reinforcements, which were not aget.

The indebtedness of the Quartermaster's Department or General Frement's command is over four millions and

The indebisiness of the Quartermaster's Department for General Frement's command is over four millions and a half.

The disastrons condition of things is attributable to the "malign influences" of Californians, with whom Gen. Frement because unfortunately connected in mining operations, and who hurried from the Pacific on learning that he was intrusted with a high millitary command. These ill omened men, some or all of whom left a dark record in California, soem to have obtained either a voluntary or constrained control of the Quartermaster and Commissary Departments of General Frement's military district. The results and consequences are fatal alike to the interests of the commanding general. They impeach either lain head or his heart, and, so far as he is practically concerned, it is not material which; for whether a wicked or a weak general, he is unfitted for so great a trust.

Nor are these faults, grave as they are, the only ones to which he is obnoxious. The war is being prosecuted by the army under his command in a way which recalis and deepens the horrors of vandalism. Without conquering tristors, he is converting Union men into enemies. His line of march is marked and memorized by spoliations and ravages which disgrace an age of civilization. We have a letter dated "Tipton, Mo., October 17," from an intelligent, observant, truthful friend, from which we take the following extract—

"From Tipton to Warsaw the march was one continuous devastation, without the least regard for principles or antocedents. One Union man, who had kept five sons from joining the accession forces, had his place literally gutted, the men of Asboth's and Singel's divisions killing, on his farm alone, forty sheep, three cows, two steers, and stealing eight horses. The awalry galloped over prairies lassoing mules and sheeting oven, sheep and hogs, then chucked them into their already overloaded wagons. There is scarcely a feathered biped left within the minute of ours. Frement does not expect, and never did expect to overtake him.

memorances along its line of march will be forever execrated.

It is said to record these things of a youthful general, from whose career the country looked for heroism tempored with humanity. But high as our hopes were of General Frement, we cannot allord, when—whether from fault or misfortune—so much depends on the wisdom and integrity of generals, to be deceived. I am, by the force of evidence which cannot be resisted, constrained to admit that he has signally fatled to discharge, with usefulness to the country, or credit to himself, the duties of his station.

I would gladly turn from this painful theme, were it permitted, to a more cheerful one. But we are oppressed by a fresh calamity. The battle of Ball's Burf. like that at Bull ran, was a defeat and a bunder. The defeat, where two thousand troops, with all the conditions and surroundarps against them, engused four thousand, was unavoidable. Of the blunder I will not speak, because I do not yet know who is responsible for it. To those who were in the battle, whether they survive or "sleep their last sleep," nothing but henor and graftfuld is due.

I was with the President last evening when the brother, son and neithew of the late General Baker, who were with him, called to show his orders. Those orders were on his person, and were crimsoned and consecrated by his blood. Though the blood partially chaeses the order, enough is legible to virideate his memory. It is sufficient to say that the orders were clear may a typical, and that they were gallantly, songrously and literally obeyed. General Baker, with imadequate means of transferration, went to the rescue of six hundred Spartuas, who were engaged with an enemy four thousand strong.

From New Orleans and Sarta Rosa we have intelligence more cherring character. The braggart Hollins, whose only exploit was in burning defenceless Greytown, published a lying despatch. His pretended victory over our blockading squadron was a psor, cheap falsehood. So, too, in regard to the attack upon Colonel Wilson's Sounces, near Fort lickens. This pretended victory was a pesitive defeat.

Of the naval expedition I am not at tiberty to speak. I would gladly turn from this painful theme, were it

the area of the case of the same of the liberty to speak.

We have an immerse, reasonably well equipped, and highly disciplined army stretching along the line of the Potemac river. It cannot remain long inactive. Let us hope that future successes may retrieve past disasters.

RIFLES.

The long promised presentation of a splendid stand of colors, the gift of Collector Barney, to the regiment named in honor of that gentleman, and commanded by Colonel Eugene Kozlay, took place yesterday before a large asin honor of that gentleman, and commanded by Colonel Eugene Kozlay, took place yesterday before a large assemblage of ladies and gentlemen, and was a most agreeable affair. The Collector made the presentation himself, and the colors were received by Colonel Koziay, who delivered a very neat and appropriate speech. Addresses were likewise made by Professor Eames, of Roston, William Allen Butler and Mr. Hamilton Bruce, Deputy Collector, the latter gentleman producing a magnificent revolver and presenting it to Colonel Kozlay.

The Hiram Barney Rills broke camp yesterday afternoon, at Hudson City, and proceeded by the seven of ciock train from Jersey Gity to Washington. The regiment musters 900 fine locking men—all Germans. Immediately before starting, each man was supplied with two days' full rations. The following is a list of the officers—

PRESENTATION OF A GOLD MEDAL TO

MAJOR MINTON. On Monday last Major D. C. Minton, of the Thirty-On Monday last Major D. C. Minton, of the Thirty-seventh regiment, New York Volunteers, was presented with an elaborately wrought gold medal, the gift of a few private citizens, friends of the recipient. Mayor Wood, in presenting the medal, passed a high culogium on Major Minton for his military service in the field, and said that Ireland, on whose green soil no cowards were ever horn, had reason to be proud of him. Major Minton received the medal from the hands of the Mayor, and made a fitting response, after which refreshments were partaken of and the party separated.

PRESENTATION.

The friends of Captain Thomas Coyle, of Company D. First regiment, Ira Harris cavalry, presented him with an elegant sword, belt and sash, last evening, at the house of Mr. George Cox, 427 Canal street, corner of Varick. Captain Coyle served in the Mexican war, in the Third dragoons, and his friends are confident he will use the sword with honor to himself and the donors.

FINANCIAL AND COMMERCIAL

TUESDAY, Oct. 29-6 P. M. The following is a comparative statement of the exports, exclusive of specie, from the port of New York to foreign ports for the week ending Oct. 29 and since January 1:-

For the week......\$1,305,990 2,198,781 2,803,945 Previously reported..63,782,696 77,596,341 105,151,586

Since January 1...\$55,058,086 79,675,122 107,955,531 Included in the above are about \$700,000 worth of wheat and corn, sent to England, and about \$815,000 worth of wheat and flour, sent to France We are sending some wheat to Portugal also. Our shipments of provisions to Great Britain continue heavy. We notice a shipment of two hundred bales of cotton to Liverpool. If the great naval expedition should succeed in opening a cotton port the condition of the planters, as depicted in their appeal to Mr. Memminger, justifies the belief that many of them would avail themselves of it to send their cotten to market.

The money market is easy; all the money that is wanted can be borrowed at 6 per cent, though some borrowers continue to pay seven on loans effected a week ago.

We have to report another break down in the foreign exchange market. Most excellent bills were offered to-day at 107<sup>1</sup>/<sub>4</sub>, and some leading city bankers sold at 107%. Francs were firmer. A leading drawer asked 5.28%, and business was done at 5.31% a 33%. It is expected that gold will arrive this week, which may impart more firmness to the market. Otherwise, bills will undoubtedly fall below 107 again.

The conflicting rumors regarding the sailing of the great expedition kept the street in a ferment to-day and checked business. Comparing the prices current at the close of business hours today with those of last evening, we note an advance of 1/4 in United States registered 6's, of 1 in Pacific Mail, of 1/2 in Panama, of 1/4 in Michigan Southern, and of % in guaranteed; a decline of ¼ in Central, % in Erie, ¼ in Galena, ¼ in Rock Island, 1/4 in Illinois Central, and 1/4 in Tennessees; and no change in Toledo, Burlington and Quincy, Missouris, United States coupon 6's, Erie preferred, &c., &c. The market is eminently one of expectancy, and it is not safe to look for any marked change until we receive military or naval intelligence of a decided character. We understand that a leading member of the Board will tomorrow move the appointment of a committee of eleven to revise the rules lately adopted with regard to commissions, and we take for granted that the upshot of the move will be a return to uniform 1/4 per cent commissions, with some precautions to prevent dishonest members doing business for less. The market at the close was dull, the following being the last quotations :- United States 6's, registered, 1881, 94 a 1/4; do. 6's, coupon, 1881, 941/4 a 1/4; do. 5's, 1874, 83 a ½; Indiana 5's, 80; Virginia 6's, 46 a 47½; Tennessee 6's, 42 a ½; North Carolina 6's, 59 a 60; Missouri 6's, 44 a ½; Pacific Mail, 94½ a ¾; New York Central, 78 a 1/6; Erie, 321/6 a 3/6; do. preferred, 51% a 1/4; Hudson River, 36% a 1/4; Harlem, 12% a 1/4; do. preferred, 31% a 32%; Reading, 35 a 3/4; Michigan Central, 48% a 49; Michigan Southa 34; Michigan Central, 48% a 48; Michigan Southern and Northern Indiana, 18½ a 34; do. guaranteed, 38¾ a 39; Panama, 116¼ a 117; Illinois Central, 65½ a ½; Galena and Chicago, 76½ a ½; Cleveland and Toledo, 36¾ a ¼; Chicago and Rock Island, 51 a ¾; Chicago, Burlington and Quincy, 63 a ½; Delaware, Lackawana and Western, 69 a tral, 65½ a ½; Galena and Chicago, 70½ a ½;
Cleveland and Toledo, 36½ a ½; Chicago and Rock
Island, 51 a ½; Chicago, Burlington and Quincy,
63 a ½; Delaware, Lackawana and Western, 69 a
70; Milwaukee and Prairie du Chien, 18 a ½; Illinois
Central bonds, 7's, 88 a ½; Delaware and Hudson
Canal, 83 a 84; Pennsylvania Coal, 76 a 78.

After the second board there was a rally in
prices in the street, and about ½ advance on the
above contations was hid for Pacific Mail, Toledo

above motations was bid for Pacific Mail. Toledo Erle, Michigan Southern, old, &c., the market being quite firm.

The receiver of the Eric Railroad Company advertises that he will pay the October interest on the fourth mortgage bonds on the 1st proximo, and we are led to believe that the interest on the fifth mortgage will be paid in December. It is un. derstood that the affairs of the old New York and Eric Railroad Company will be settled up, and on 1st January, 1862, the new Eric Railroad Company will start fairly on its career. In order that the public may appreciate its condition, and the value of its securities, we may mention that its total debt will be \$19,692,500, distributed as follows:-

 1st mortgage
 \$3,000,000

 21 do
 4,000,000

 3d do
 6,000,000

 4th do
 4,000,000

 5th do
 1,792,500

The interest on this sum is \$1,378,485. Year be fore last (ending September 30, 1860) the road earned net \$1.827.406, being \$448.921 in excess of the charge for interest; and it may be remarked that, contrary to the practice of many of our railroads the whole cost of construction and renairs for the year was charged to working expenses, which amounted to no less than \$3,352,910, out of a gross receipt of \$5,180,316. Last year (ending September 30, 1861) the gross receipts amounted to \$5,612,606-an increase of \$442,290 over 1859-60. If the working expenses-which have not yet been ascertained—are in the same ratio as they were in 1859-60, the net profit for the year will amount to \$1,986,862, which, after paying the interest on the debt, will leave \$608,377 to be divided among the holders of the preferred stock. Of this stock there is in existence less than \$8,000,000, seven per cent upon which would amount to \$560,000. The completion of the long dock will probably operate very favorably upon the earnings of the Erie during the current working year and hereafter; so that it seems not nureasonable to expect that after New Year not only will the holders of the preferred stock get seven per cent regularly, but there will be something left to divide among the holders of the com-mon shares. The following table shows the gross

Great complaint is made of the tardiness of the Treasury Department in settling the bills due to the creditors of government. Cases are mentioned in which creditors for supplies sold for cash had their bills inspected and pronounced correct a month ago, yet cannot get any money. Two failures are reported to have taken place in Boston from this cause; and parties here who are selling goods to government are advancing their prices so as to cover the shave they are compelled to pay in

order to borrow from bankers the money due them by the United States. There is no reason why ese delays should occurr. Mr. Chase has all the money he needs, and it is not creditable that government creditors should be kept waiting week after week after their accounts have passed inspection. This and other circumstances lead to the belief that there must be in the Treasury De' partment some obstructives-relies, probably, of the Cobb regime-whose retention in office is gravely detrimental to the public service.

The banks paid into the Sub-Treasury to-day \$3,500,000 on account of the second \$35,000,000 loan. The business of the Sub-Treasury was as follows:-

The following sales were made at auction this orning by Adrian H. Muller, by order of Jesse K. Dubois, Auditor of the State of Illinois:-

\$9,000 Missouri 6's, 1876 and coupon, July, 1861. 44
6,000 do 1883 do do 44445
18,000 do 1886 do do 44444
28,000 do 1886 Hamibal and St. Jos. Rr. 484
The above on account of the Bank of Raleigh and the Corn Exchange Bank of Fairfield, of Illinois, now in liquidation.

The Chicago Journal of Saturday evening thus notices money and exchange matters:-Basiness in money matters continues very quiet. Exchange is abundant at para M per cent premium. Currency is picuty, with but a light demand, the high freights in a measure preventing the shipment of grain to the scabard. Gold is in good supply at 1/2 M/2 per cent premium.

The Milwaukee Sentinel of the same day says:-There was no change to speak of in the condition of monetary matters yesterday. The offerings of produce bills continue light, most of the wheat making up the shipments of the last two or three days having been drawn against in advance, and as a consequence exchange is comparatively firm. Sight drafts on New York readily command \( \frac{1}{2} \) per cent premium, but the banks nevertheless are free sellers at 1 per cent. Gold continues in good demand, selling at 1\( \frac{1}{2} \) premium, and Treasury notes at \( \frac{1}{2} \) per cent.

At a meeting of the Chicago Board of Trade, held on Friday, resolutions were adopted condemnatory of the new banking law, to be submitted to th people of Illinois for their adoption or rejection at

the approaching election in November. The imports of Canada for the nine months ending September 30 were as follows:-

.. 12,568,274 Total \$33,262,120
The duty amounted to 3,954,736 The following table will compare the imports for the nine months of three years past:-
